PROFILE

Sales Operations and MIS professional with 5+ years in FMCG sales operations, reporting and analytics. I turn manual, spreadsheet-heavy processes into reliable, audit-ready systems — and I build those systems myself, using AI as my engineering team. Comfortable owning daily order and delivery control, management reporting, and the automation that sits behind them.

EXPERIENCE

Senior Officer — Sales Operation (MIS)

Jul 2023 – Present

Akij Resources

- Work in a 7-member MIS team driving sales targets; collect and review progress data from 12 salespeople.
- Research past data to forecast future sales growth and prepare daily, monthly and yearly sales, order and management reports.
- Create an average of 20 sales orders daily and oversee about 18 daily delivery movements across the country from 5 distribution points.
- Maintain key customer relationships to ensure timely credit recovery.

Sales Admin

Feb 2021 – Jun 2023

Stalwart Associates

- Prepared and monitored monthly training schedules for around 15 SR and TSO, and trained 100+ sales force members to improve efficiency and sales growth.
- Arranged 5+ major events and over 50 regular events and field marketing activations; visited dealer points and ran motivational sessions to increase revenue.
- Oversaw TA/DA and billing, credit recovery, stock and online payment confirmation.
- Prepared daily, monthly and yearly sales and collection reports and analysed data for management.

Sales Executive — MFS

Jan 2019 – Jul 2019

SouthEast Bank Ltd.

- Worked in a 5-member team to grow Telecash, the bank's mobile financial service.
- Onboarded 4 education institutions and a garments factory for regular transactions and salary disbursement, and opened around 600 new accounts.
- Maintained key customer relationships with prompt support for smooth transactions.

SELECTED PROJECTS

Integrated Sales, Order, Inventory & Delivery ERP

Open source

ERP for a bulk-commodity trading business: locked rates, per-customer delivery priority, immutable stock ledger and an append-only audit log.

Next.js 16 · React 19 · TypeScript · Prisma · PostgreSQL 17 · Tailwind 4

Small Business Manager — with a Farming module

Open source · APK

Offline-first business and farm management for 2–5 partners: POS, payables, double-entry journal, farming cycle costing and a bilingual AI assistant.

TypeScript · Node.js · SQLite · React/Vite PWA · Expo Android · Supabase

Family Finance

Open source · Live

Privacy-first family finance manager where each member's ledger is enforced private in the database, with a shared aggregate family dashboard.

Kotlin · Jetpack Compose · Firebase Firestore · Web PWA

Corporate Zakat Management & Assurance Platform
Continuous, rule-driven zakat computation with full lineage from transaction to payment and an audit-ready control tower.
Next.js · Prisma · PostgreSQL

SFUWT Welfare Application Portal
Public welfare application portal: guided multi-category wizard, document validation, server-enforced approvals and printable Bengali forms.
Python · Flask · SQLite · PyMuPDF

Transport Management System Open source
Role-based corporate transport covering request → approval → assignment → trip, with conflict detection and a driver availability state machine.
Next.js 16 · TypeScript · Prisma · PostgreSQL

SFUWT Control Tower & Field Visit Tracker
Dashboard fed live from the ERP warehouse, plus a GPS-verified field-visit tracker with photo evidence, approvals and an audit trail.
Node.js · MSSQL · Docker

SKILLS

Operations	Sales operations & administration · Field force & distributor management · Delivery management · Order & inventory control · Sales strategy, budgeting and target setting
